

## Requirements for Stencil Artwork

### 1. Hard - Copy of Artwork

We charge for cost of reproduction & stencils (& possibly any costs for photo-typesetting)

Hard-copy artwork should meet the following conditions:

- Sharp contours (impressions) as otherwise retouching charges will be incurred.
- Artwork should never be smaller than the original size.
- Minimum line thickness of 0.15 mm, otherwise retouching charges will be incurred.

### 2. Film Artwork

The cost of stencils only will be charged, i.e. neither reproduction, photo-typesetting nor retouching costs.

Film artwork should meet the following conditions

- The coated side should be facing upward
- Minimum line thickness to be 0.15 mm
- The film artwork should be of original size
- The layout of the film artwork should correspond to the layout on the stencil
- The film artwork must have completely sharp contours (impressions).

### 3. Electronic computer file artwork

Only the cost of reproduction and stencils will be charged.
